2	half an allotment plot to be used for car park	49%
3	any other options	see below
4	allotment meeting - interested	10%

### Comments Number 3

- 1 Bins
- 2 Noticeboards and Dog Bins
- 3 Speeding Equipment
- 5 Speed Signs, Village Hall, Village Signs
- 6 Village Hall
- 7 Village Hall Car Park and dog Bins
- 9 Above all of the suggestions put by your goodselves. I would like to think that the majority of the money (or a good %) would be spent on road and speed awareness signs if we have more traffic we need to slow the traffic down
- 10 We have I understand a few bob to spend. I would prioritise SPEED AWARENESS signs + the normal 30 mph signs
- 12 The bad corner on The Street vehicles don't want to reverse when they've driven around with the cars on the corner and its not there right of way. Fed up of bumping up and down the kerb. Had a car drive around us on the wrong side of the road up over the kerb as we wouldn't reverse back when it was our right of way. Is it going to take a head on collision (deadly) for something to happen. We need proper cameras asap
- 17 Measures to reduce both the volume and speed of vehicles using Gilligham Dam
- 20 see attached
- 22 good choices
- 26 Great idea for park improvements! Is there an opportunity to add a cycle track/path at the park for young children to learn cycle on? Roads are too busy these days for children who aren't yet confident and we've had to take our children to Ellingham. Speed controls and noise abatement (from McDonalds) would be welcomed.
- 28 Speeding signs
- 31 replace the present glass bus shelter with a clear perspex one, that the people who are smashing it, can't do so again
- 35 The demographic of this village is heavily in the age 60+ (29%). Whilst I feel that some things must be provided for the younger people. I feel some money should be spent on the concerns of older people such as speeding, antisocial behaviour, vandalism - need CCTV, speed/noise cameras
- 37 something to make playground area more inviting for families e.g. improve look of approach, make more of the mounds, adult and mini-versions of playground gym equipment such as cross trainers, air walkers etc
- 38 It depends on the ages and number of children in the village who would use any equipment. More needed for the benefit of the village residents are CCTV cameras for the social damage and speed cameras for drivers in the village. The Parish Council were warned about damage to the bus shelter and its been a costly exercise.
- 39 not what the money is spent on, but ideas like Geldeston have with the scarecrow trail would bring extra money to the village
- 40 Car parking to get parked cars off The Street
